Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. Patent Cooperation Treaty Update
Accession by Viet Nam

The United States Patent and Trademark Office received notification from the World Intellectual Property Organization (WIPO) that Viet Nam deposited its instrument of accession to the Patent Cooperation Treaty (PCT) on Dec. 10, 1992. Viet Nam will become the 54th Contracting State of the PCT on Mar. 10, 1993. Consequently, nationals and residents of Viet Nam are entitled to file international applications on and after Mar. 10, 1993, and from the same date it is possible to file international applications designating and electing Viet Nam.

Declaration of Continuation by the Czech Republic and the Slovak Republic

The United States Patent and Trademark Office received notification from the World Intellectual Property Organization (WIPO) that, on Dec. 18, 1992, the Czech Republic deposited a declaration the effect of which is that the Patent Cooperation Treaty (PCT) continues, as from Jan. 1, 1993, to be applicable as far as the Czech Republic is concerned. On Dec. 30, 1992, the Slovak Republic deposited a declaration the effect of which is that the PCT continues, as from Jan. 1, 1993, to be applicable as far as the Slovak Republic is concerned.

Consequently, as from Jan. 1, 1993, nationals and residents of the Czech Republic and nationals and residents of the Slovak Republic are entitled to file international applications under the PCT, and the Czech Republic and the Slovak Republic may be designated and elected in international applications filed on or after Jan. 1, 1993. A designation of Czechoslovakia is no longer possible in international applications filed on or after Jan. 1, 1993.

The effects of an international application whose filing date falls in the period starting on Jan. 1, 1993, and ending on Feb. 21, 1993, and which does not specifically designate the Czech Republic, may be extended to the Czech Republic under the provisions of Rule 32 of the Regulations under the PCT. The effect of an international application whos international filing date falls in the period starting Jan. 1, 1993, and ending on Mar. 6, 1993, and which does not specifically designate the Slovak Republic, may be extended to the Slovak Republic under the provisions under that Rule. The applicant in respect of each international application concerned will receive a notification from the International Bureau of WIPO informing the applicant of the possibility to request such an extension and of the acts required to be performed under the provisions of Rule 32.

As regards any international application whose international filing date is prior to Jan. 1, 1993, and in which Czechoslovakia is specifically designated, the "national filing effect" of any such application will, subject to the fulfillment of certain conditions, be recognized in the Czech Republic and in the Slovak Republic (provided that the international application had not lost its effect in Czechoslovakia by Dec. 31, 1992).

Details concerning the applicable procedure under Rule 32 and concerning the conditions under which international applications designating Czechoslovakia will continue to have effect in the Czech Republic and in the Slovak Republic are found in two further announcements also furnished by WIPO. The announcements are reproduced below.

Regarding Industrial Property Protection in the Czech Republic and the Slovak Republic

The following announcements concerning industrial property protection in the Czech Republic and the Slovak Republic were furnished by the World Intellectual Property Organization (WIPO).

Announcement on the Protection of Industrial Property in the Czech Republic

In view of the fact that Czechoslovakia ceased to exist on Dec. 31, 1992, and that the Czech Republic and the Slovak Republic became independent States on Jan. 1, 1993, the situation of industrial property protection in the Czech Republic is summarized below.

I. *Legal Basis*

(1) The respective legal acts on the protection of industrial property of Czechoslovakia remain applicable in the Czech Republic.

II. *Applications for Industrial Property Rights Filed with the Federal Office for Inventions of Czechoslovakia and Industrial Property Rights Granted by that Office,*

(2) Applications for industrial property rights filed with the Federal Office for Inventions of Czechoslovakia and industrial property rights granted by that Office maintain their legal effect in both the Czech Republic and the Slovak Republic, it being understood that the next fees which are to be paid must be paid, for protection in both the Czech Republic and the Slovak Republic, to both the Industrial Property Office of the Czech Republic and the Industrial Property Office of the Slovak Republic.

III. *International Treaties*

(3) The Czech Republic has deposited, with effect on Jan. 1, 1993, a declaration the effect of which is that all those treaties administered by WIPO to which Czechoslovakia was party continue to be applicable as far as the Czech Republic is concerned. Those treaties are: the Convention Establishing the World Intellectual Property Organization, the Paris Convention for the Protection of Industrial Property, the Madrid Agreement for the Repression of False or Deceptive Indications of Source on Goods, the Madrid Agreement Concerning the International Registration of Marks, the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks, the Lisbon Agreement for the Protection of Appellations of Origin and their International Registration, the Locarno Agreement Establishing an International Classification for Industrial Designs, the Patent Cooperation Treaty (PCT), the Strasbourg Agreement Concerning the International Patent Classification, the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure, the Berne Convention for the Protection of Literary and Artistic Works, and the Treaty on the International Registration of Audiovisual Works.

IV. *Effects in the Czech Republic of International Applications under the Patent Cooperation Treaty (PCT)*

(4)(a) Pursuant to the deposit of the declaration of continuation referred to in paragraph (3), above, nationals and residents of the Czech Republic can file international applications, and the Czech Republic can be designated and elected in international applications filed, on or after Jan. 1, 1993.

(b) Rules 32.1 and 32.2 of the Regulations under the PCT permit the extension of international applications to the Czech Republic.

(c) For the purpose of determining the status of international applications with respect to the Czech Republic, one has to distinguish between

(i) international applications specifically[1] designating Czechoslovakia which were filed prior to Jan. 1, 1993(see(d), below);

(ii) international applications not specifically[1] designating the Czech Republic—irrespective of the other designations they contain—filed between Jan. 1, 1993, and Feb. 21, 1993 (see (e) to (g) below);

(iii) international applications specifically[1] designating the Czech Republic filed on or after Jan. 1, 1993 (see (h) below).

(d) As regards any international application whose *international filing date* is *prior to Jan. 1, 1993*, and in which *Czechoslovakia* is specifically *designated*, the "national filing effect" of any such application under Article 11(4) of the PCT will, pursuant to the deposit by the Czech Republic of its declaration of continuation, be recognized in the Czech Republic (provided that the international application had not lost its effect in Czechoslovakia by Dec. 31, 1992). The conditions under which any such international application, or any patent resulting therefrom and granted by the Federal Office for Inventions of Czechoslovakia, may continue to have effect in the Czech Republic are the following:

(i) if a patent has been granted by the Federal Office for Inventions of Czechoslovakia on the basis of the international applications, paragraph (2), above, is applicable;

(ii) if the applicant has entered the national phase before the Federal Office for Inventions of Czechoslovakia but a patent

[1] In this announcement, an international application is regarded as "specifically" designating a State either if that State has been designated under Rule 4.9(a) of the Regulations under the PCT or if the designation of that State has been confirmed under Rule 4.9(c) of those Regulations.

for invention has not been granted by the Office without the application having been rejected by it, paragraph (2), above, is applicable;

(iii) if the applicant has not entered the national phase before the Federal Office for Inventions of Czechoslovakia and the time limit for entering the national phase had not expired on Dec. 31, 1992, the applicant must, before the expiration of the applicable time limit under PCT Article 22 or 39(1), furnish to the Industrial Property Office of the Czech Republic a translation of the international application into the Czech language and pay the prescribed fee.

(e) As regards any international application whose *international filing date* is *later than Dec. 31, 1992, and earlier than Feb. 22, 1993*,[2] and in which the *Czech Republic is not* specifically *designated*, its effects may be extended to the Czech Republic (irrespective of the other designations it contains) through the performance by the applicant of the following acts:

(i) filing with the International Bureau of the World Intellectual Property Organization (WIPO) a request for extension;

(ii) paying to the International Bureau of WIPO an extension fee of 185 Swiss francs, payable in Swiss francs.

(f) The applicant in respect of each and every international application referred to in (e), above, or his agent or common representative if there is one, will receive a written notification from the International Bureau of WIPO calling his attention to the fact that he can, by filing a written request for extension, extend the effects of the international application to the Czech Republic. The notification will, in particular, specify the modes of payment of the extension fee of 185 Swiss francs. The request for extension must contain the identification of the international application by its international application number. A form which may be used for the purpose of requesting the extension to the Czech Republic will be attached to the notification. The request for extension must be in English or French, and may be sent by telefax or telex. The request for extension and the corresponding payment must reach the International Bureau of WIPO before the expiration of three months from the date of the notification sent by the International Bureau of WIPO; if either the request or the fee is received later, the request will be refused. It is recommended that applicants await the notification from the International Bureau of WIPO and use the form attached to it, but requests and payments may be made without waiting for the notification from the International Bureau of WIPO.

(g) If the condition described in (e) and (f), above, are fulfilled, the Czech Republic will be considered as having been designated in the international application on its international filing date. For entering the national phase before the Industrial Property Office of the Czech Republic, the applicant must furnish to that Office a translation of the international application into the Czech language and pay the prescribed fee within three months from the date of the request for extension or, if it expires later, within the following time limit:

(i) before the expiration of 21 months from the priority date if the Czech Republic is not elected under Chapter II of the PCT within 19 months from the priority date;

(ii) before the expiration of 30 months from the priority date if the Czech Republic is elected under Chapter II of the PCT within 19 months from the priority date.

(h) As regards any international application whose *international filing date* is *later than Dec. 31, 1992*, and in which the *Czech Republic* is specifically *designated*, the applicant, in order to enter the national phase before the Industrial Property Office of the Czech Republic, must furnish to that Office a translation of the international application into the Czech language and pay the prescribed fee to that Office within the following time limit:

(i) before the expiration of 21 months from the priority date if the Czech Republic is not elected under Chapter II of the PCT within 19 months from the priority date;

(ii) before the expiration of 30 months from the priority date if the Czech Republic is elected under Chapter II of the PCT within 19 months from the priority date.

[2]With the exception of any international application whose international filing date is later than Dec. 31, 1992, and in which the Czech Republic is specifically designated: in such a case, the procedure described in (e) to (g) is not applicable, and the procedure described in (h) is applicable.

V. *Effects in the Czech Republic of International Registrations under the Madrid Agreement Concerning the International Registration of Marks.*

(5)(a) Pursuant to the deposit of the declaration of continuation referred to in paragraph (3), above, and pursuant to Rule 38 of the Regulations under the Madrid Agreement, any international registration with a territorial extension to Czechoslovakia effective from a date prior to Jan. 1, 1993, may have effect in the Czech Republic subject to the following conditions:

(i) the filing with the International Bureau of the World Intellectual Property Organization (WIPO) of a request;

(ii) the payment to the International Bureau of WIPO of a fee, the amount of which is 62 Swiss francs per international registration.

(b) The owner of each and every international registration concerned, or his representative (if the owner has a representative whose name appears in the International Register), will receive a written notice from the International Bureau of WIPO calling his attention to the fact that he can, by filing a written request, obtain a continuation of the effect of the international registration in the Czech Republic. The notice will contain a request form (in French) and specify the modes of payment of the fee. The request must contain the identification of the international registration concerned by its international registration number. The request must be made in English or French, and may be sent by telefax or telex. The request and the corresponding payment must reach the International Bureau of WIPO before the expiration of six months from the date of the notice sent by the International Bureau of WIPO; if either the request or the fee is received later, the request will be refused. Requests and payments may be made without waiting for the notice of the International Bureau of WIPO.

(c) If the conditions described above are fulfilled, the international registration concerned will, with respect to the Czech Republic, have effect as from the effective date of territorial extension to Czechoslovakia and benefit from any priority validly claimed in regard to such extension.

(d) For each international registration which has no territorial extension to Czechoslovakia or whose international registration date is later than Dec. 31, 1992, protection in the Czech Republic can only be obtained by filing, through the intermediary of the national Office of the country of the owner, a request for territorial extension under Rule 20 of the Regulations under the Madrid Agreement. It is to be noted that requests for territorial extension to the Czech Republic are possible at present.

VI. *New Applications for Industrial Property Rights*

(6) Applications for industrial property rights filed from Jan. 1, 1993, with the Industrial Property Office of the Czech Republic have no effect in the Slovak Republic. However, unless it is clear that the applicant does not seek protection in the Slovak Republic, the Industrial Property Office of the Czech Republic will, during a transitory period of a few months, invite the applicant to specify, within a time limit which will be fixed in the invitation, whether he wants to obtain protection in the Czech Republic only or both in the Czech Republic and in the Slovak Republic. In the latter case, the Industrial Property Office of the Czech Republic will transmit a copy of the application to the Industrial Property Office of the Slovak Republic and the filing date of the application with the Industrial Property Office of the Czech Republic will be recognized by the Industrial Property Office of the Slovak Republic.

(7) Applications requesting protection in the Czech Republic must be filed in the Czech language.

VII. *General Provisions*

(8) The fees to be paid to the Industrial Property Office of the Czech Republic are of the same amount as the fees which were payable to the Office of Czechoslovakia before Jan. 1, 1993.

(9) If an applicant does not have his ordinary residence or principle place of business in the Czech Republic, he must authorize a representative in the Czech Republic, and all applications to be filed with the Industrial Property Office of the Czech Republic must be filed through the intermediary of such a representative. The list of persons who can act as representatives is available at the Industrial Property Office of the Czech Republic.

(1) Pending the enactment of new legislation, the respective legal acts on the protection of industrial property of Czechoslovakia remain applicable in the Slovak Republic.

II. *Applications for Industrial Property Rights Filed with the Federal Office for Inventions of Czechoslovakia and Industrial Property Rights Granted by that Office*

(2) Applications for industrial property rights filed with the Federal Office for Inventions of Czechoslovakia and industrial property rights granted by that Office maintain their legal effect in both the Czech Republic and the Slovak Republic, it being understood that the next fees which are to be paid must be paid, for protection in both the Czech Republic and the Slovak Republic, to both the Industrial Property Office of the Czech Republic and the Slovak Republic.

(6) From Jan. 1, 1993, it is possible to file applications for industrial property rights with the Industrial Property Office of the Slovak Republic. Applications filed with the Industrial Property Office of the Czech Republic have no effect in the Slovak Republic. However, the following procedure will apply, during a transitory period of a few months, to applications filed with the Industrial Property Office of the Czech Republic: unless it is clear that the applicant does not seek protection in the Slovak Republic, the Industrial Property Office of the Czech office will invite the applicant to specify, within a time limit which will be fixed in the invitation, whether he wants to obtain protection in the Czech Republic only or both in the Czech Republic and the Slovak Republic. In the latter case, the Industrial Property Office of the Czech Republic will transmit a copy of the application to the Industrial Property Office of the Slovak Republic and the filing date of the application with the Industrial Property Office of the Czech Republic will be recognized by the Industrial Property Office of the Slovak Republic.

(7) Applications requesting protection in the Slovak Republic must be filed in the Slovak language.

VII *General Provisions*

(8) The fees to be paid to the Industrial Property Office of the Slovak Republic are of the same amount as the fees which were payable to the Office of Czechoslovakia before Jan. 1, 1993.

(9) If an applicant does not have his ordinary residence or principal place of business in the Slovak Republic, he must authorize a representative in the Slovak Republic, and all applications to be filed with the Industrial Property Office of the Slovak Republic must be filed through the intermediary of such a representative. The list of persons who can act as representatives is available at the Industrial Property Office of the Slovak Republic.

If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the patent.

Attention is drawn to the patents which were issued on February 20, 1990 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,901,370 through 4,903,344

[2]With the exception of any international application whose international filing date is later than Dec. 31, 1992, and in which the Czech Republic is specifically designated: in such a case, the procedure described in (e) to (g) is not applicable, and the procedure described in (h) is applicable.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office.* The full-text utility and design patents are distributed numerically on 16. mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.
